Ewi Damilola Emmanuel

Software Engineer

Profile

A skilled frontend developer with expertise in HTML, CSS, and JavaScript. With a passion for creating visually stunning and user-friendly interfaces, they excel in leveraging frontend frameworks like React and Angular to build dynamic web applications.

Experience

Nigerian Association for Computing Students (MTU Chapter) - Ogun state, NG

Senior Student Representative   Sept 2016 – Present

- Representing the interests and concerns of my fellow students to the department ensuring that their
  voices are heard in decision-making processes

- Gathering feedback from students about their experiences in the department and conveying this feedback
  to department and staff to help improve the quality of education and overall experience for students.

Darja Consults Limited - Lagos State, NG

UI/UX Designer   Jul 2023 – Sept 2023

- Conducting user research to understand the needs, preferences, and pain points of travelers and visa
  applicants.

- Created interactive HTML5 web-simulations utilizing CSS3, Javascript, ReactJS, and plugins.

- Creating wireframes and interactive prototypes to visualize the app's structure, layout, and user flow. This would have involved designing the navigation, information architecture, and interaction patterns to ensure a seamless user experience.

- Conducting usability testing sessions to gather feedback on the app's design from real users. You would have analyzed the results of these tests to identify areas for improvement and iteratively refine the UI/UX design based on user feedback.
